

CWE 195: Work Experience Practicum

Credits 5

This course is designed to help students develop and improve their workplace competencies. Students will learn to establish and achieve workplace goals and assess how their performance contributes to their development as professionals. Students will participate in online modules on goal setting, transferable skills, resume, cover letter, interviewing and portfolio building. Must currently be working in a job, internship, or volunteer position and work 120 hours over the quarter.
